INDUSTRY OVERVIEW FOR THE COMPANY & ITS SUBSIDIARIES

1. MOBILE HANDSETS MARKET IN INDIA

One of the subsidiaries of the Company, nexG Devices Private Limited (NDPL), is engaged into trading of mobile handsets business in India.

Mobile Handset Market Overview

According to CMR's India Quarterly Mobile Handset Market Review, Q4' CY 2017, mobile handset vendors shipped 88 million mobile handset units in 4Q 2017.

For the entire year, mobile handset vendors have shipped around 287 million mobile handset units in India. The smartphone market recorded a 19% sequential decline in 4Q 2017, with 30 million units shipped. The feature phone market, on the other hand, witnessed a 36% sequential growth in 4Q 2017, and YoY growth of 62%.

Traditionally, December is a lean period. However, 4Q 2017 bucked this trend. From the throes of demonetization at the beginning of 2017, the India mobile handset market touched a new historic high in OND'2017. If one were to look at historic

trends, the India mobile handset market usually sees high refresh cycles in May-June, coinciding with the college admission season, and in September-October, owing to the festive season.

2017 was remarkable with certain pioneering mobile handset brands like HTC, Asus and Gionee, among others, seeing worrisome warning signals, while a new breed of exciting handset brands, like Comio and NUU Mobile, among others, came to the fore. As per CMR, this trend will deepen further in 2018. LYF's JioPhone was major growth driver for 4Q CY2017. Its shipments grew more than five-fold in 4Q. This new trend led to surge in market share of feature phones. With local manufactured JioPhones hitting the market in coming quarters, the vendor is expected to better its performance, as per CMR. In smartphones, Xiaomi became the clear market leader, on the back of its growing offline penetration and value for money products. CME is expecting to witness revival in online strategy of Samsung along with its enhanced focus on enterprise business and Appgets.

As per CMR, 2018 will continue to witness growth of entry-level smartphones which will largely cater to first time smartphone buyers. Aggressive, pre-paid 4G entry level plans launched by telcos in 1Q 2018 will further accelerate the adoption of 4G.

CMR 4Q Brand Leaderboard

- In feature phones, LYF scaled a new high, emerging as the market leader with 27% market share, followed by Samsung with 14% market share.
- In smartphones, Xiaomi emerged as the market leader with 25% market share, followed by Samsung with 23% market share.

YoY Market Movement Trends

Winners and Losers: According to CMR Mobile Handset Report, major Chinese brands saw exceedingly healthy year-on-year growth. On the other hand, some pioneering brands saw their growth decline. For them, 2018 will be a challenging year.

2. MOBILE TELEVISION OR MOBILE VIDEO STREAMING BUSINESS

One of the wholly owned subsidiaries of the Company, DigiVive Services Private Limited (DSPL) is engaged into mobile video streaming services in India.

Mobile Video Streaming Industry Overview

Globally, video consumption has grown rapidly to make it one of the largest categories on PC-Internet. Mobile has also begun to play a significant role in video consumption across the world with over 15% of the total video consumption already moving towards mobile devices in countries like Japan and UK. In the US, most players in the top ten offer free ad-supported videos through varying business models.

Like music industry, video industry is also observing shift towards digital formats. Traditionally, the highest video consumption has been happening on TV; however with the faster growing internet penetration and access to multimedia devices, more and more time is being spent on consuming digital videos. The traditional form of TV viewership is giving way to the new segment of consumers who are choosing to consume multimedia content on-demand. This has led to a sharp increase in video traffic consumption.

Key Players in Mobile Video Streaming Industry

While players like YouTube and Vuclip have developed a strong position in the online video distribution market in India, a significant quantum of local Indian content still remains to be digitized. This presents a large opportunity for local players who can build a differentiated position on the basis of their content catalogues. Paid premium videos in India originated from telcos who offered mobile TV services to their consumers through a subscription model. The key players in the industry include Yupp TV, Voot, Netflix, Amazon Prime, nexGTV, Sony LIV, Ditto TV, Hotstar (a venture by Star group), EROS Now and Spuul (focused only on movies), and Zenga TV. Beside, there are players like ALT Balaji, that apart from their movie catalogue, is focusing on original web series. Then there's HOOQ, the Singapore-based video streaming company that solely focuses on Hollywood content and it launched in India a couple of years ago and went into oblivion. But recently, the company announced a revamp of its service and now allows users to stream movies and TV shows at an introductory price of Rs. 89 (US\$1.36) for the first three months. HOOQ has also introduced Transactional Video-on-demand (TVOD) allowing users to rent content on a pay-per-view basis, like Hollywood movies after 90 days cinema release.

Business Model in Mobile Video Streaming Industry

There are three types of business models which have been successful in the videos space - Ad-supported user generated content, Ad-supported premium content and Paid premium content. Freemium models also exist where a part of the content is offered for free (generally ad-supported), and the remaining part is offered for a fee.

Players like Netflix and Amazon are expected to both pave the way for paid content in India and also benefit from the tailwinds that are driving the subscription model. So far, there have been three main barriers to this subscription model. 1) The mindset: At a basic monthly package of around USD \$ 3, cable TV is cheaper in India than in most places around the world. The average Indian consumer doesn't like paying extra (beyond cable) for content that is delivered at home. They are willing to pay extra for content only if it is part of an experience - like an outing to a movie theatre. 2) High data costs: & 3) Limited options and low adoption of online payments.

These barriers are now reducing. The aggressive launch of telecom service provider Reliance Jio in September 2016 has shaken up Indian telecom sector and is resulting in lowering data prices and making it affordable and accessible. In the KPMG India -FICCI 2017 report, as per Nielsen estimates, the average time spent by an individual on streaming videos has increased nearly nine times from two minutes a day in Q2 2014 to 18 minutes a day in Q4 2016. After the demonetization exercise in November 2016 and the push towards a less-cash society, online payment is gaining traction. There is also increasing awareness and growing popularity of online video, and consumers are opening up to the idea of paying for original and exclusive content and for immediacy. The entry of Netflix and Amazon is both a challenge and boon for industry. It creates a proof of concept and opens a brand new category - of people willing to pay for content.

Voot currently has 17 million users and is ad-based focused with over 120 brands advertising on its platform and is looking to introduce a subscription model shortly. We have to be mindful of both models and see how it all plays out. It's an emerging space and players are all at learning stage at present. A bundling of data and content could help players to unlock the value of the subscription model. Based on the current industry dynamics, "a model which can support a gradual shift from AVOD (advertisement-led video on demand) to SVOD (subscription-led) and TVOD (transaction-led) will survive in the longer run. Also, how effectively AVOD models can be put into play would depend largely on how better targeted advertising can be created by analyzing individual consumer behaviors through appropriate data mining. Video streaming can't be profitable purely on an ad-led model.

Key Trends in Mobile Video Streaming Industry

Indians' appetite for binge-watching online videos is set to make the country among the top 10 OTT (Over the Top) video market in the world in next four year. With major OTT players, Netflix, Hotstar, Amazon Prime, pushing deeper into people living rooms, OTT video market in India is growing at CAGR of around 23%, as per data revealed by PwC.

OTT revenue in India has been pegged at Rs. 2019 Crore in 2017 and is expected to reach Rs. 5595 crore by 2022 as per PwC report quoted in the TOI article. The growing rivalry among the international and regional subscription video on demand (SVOD) platforms is evident with 70% of the revenue in 2017 attributable to subscription services. An example of standalone SVOD services delivered over the open internet is Netflix. In contrast Hotstar follows a hybrid subscription model where some programs are free and some are chargeable. As per PwC, this trend is expected to be continued and by 2022, 79.4% of the total market revenue is expected to be from SVOD. With Indian economy surging past at rapid pace, customers personal and professional life are getting busier, travel is getting longer and technology is becoming simpler.

NDPL has distribution arrangement with various brands for distribution and marketing of handsets in the Indian markets. NDPL has marketing offices and warehouses located at various cities in India and over a period of time it has established a nationwide network to handle the distribution business all over India.

With the launch of 4G services, mainly by Reliance Jio, this market has expanded very fast and is going to expand manifold in future as well and will have more opportunities for NDPL, having a strong presence with warehouses across the country. NDPL is currently doing business with Gionee, VIVO and Tecno. mobile brands to distribute mobile handsets to LFRs (Large Format Retail outlets) across the country.

NDPL is in the process of further tie-ups with renowned brands by leveraging its logistics, warehousing & distribution expertise across the country.

DigiVive Services Private Limited (DSPL)

DSPL is in the business of running next generation mobile video OTT streaming services. It is running an OTT service "nexGTV" since May 2011. nexGTV offers a bouquet of over 150 Television channels to its current subscriber base of around 5 Lakh+ customers and the nexGTV app has been downloaded by more than 25 million users from the various app stores. NexGTV also has a large VOD library of Tv content and movies. The delivery mechanisms for nexGTV include Native Client, Website, Mobile WAP browsers. Further, DSPL has also entered into offering Multiscreen solutions for Direct To Home (DTH) Industry and has tied up with two large DTH players in the country.

After the entry of Reliance Jio in India, followed by new set of OTT players stepping into the market, nexGTV completely redesigned the product and re-launched. Earlier their product was only for Indian audience, and after this, it was available all over the world.

A number of OTT video service providers such as Vuclip, Hotstar, Voot, Amazon Prime, Netflix, etc emerged in the market by 2016. They were all major players in the international market and invested heavily in the Indian market. They saw huge potential for growth as India was a growing market, both in terms of better network connectivity and increase in the audience for OTT video services. Content was definitely the topmost agenda for them as they had reportedly set aside huge budget exclusively for acquiring content in India. Not only the content but, other players invested hugely in understanding and connecting to the audience through online and offline marketing & advertisement.

Though this sector has a high rate of growth, but is constrained by requirement of regular high level of capital investment. The market is getting more competitive because of launch of cost effective content streaming services by large players like Reliance Jio, HotStar etc . nexGTV has been a strong contender in this segment in the past, but is gradually losing market share due to the challenges posed by large new players with their better content offerings, huge investments requirement and big marketing budgets. In view of above, the management was exploring the options to either go for consolidation or for divesting stake to some strategic player to create long term value proposition for its shareholders.

The Company on August 13, 2018 has signed the Share Purchase Agreement, to divest its entire stake in DigiVive Services Private Limited (DSPL), a wholly owned subsidiary of the Company, at a consideration of Rs.10 crore i.e. book value of the investment to Infotel Business Solutions Limited, pursuant to which DSPL will cease to be a wholly owned subsidiary of the Company. ANNEXURE "B" TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

TO THE MEMBERS OF

MEDIA MATRIX WORLDWIDE LIMITED

We have audited the internal financial controls over financial reporting of **MEDIA MATRIX WORLDWIDE LIMITED** ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the guidance note on Audit of Internal financial control over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on audit of Internal financial controls over financial reporting (the "Guidance Note") and the standards on auditing as specified under Section 143 (10) of the companies act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by Institute of Chartered Accountants of India. Those standards and the guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE - THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF MEDIA MATRIX WORLDWIDE LIMITED AS ON 31ST MARCH 2018.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

TO THE MEMBERS OF
MEDIA MATRIX WORLDWIDE LIMITED

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of MEDIA MATRIX WORLDWIDE Limited ("the Holding Company") and its subsidiary companies, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on audit of Internal financial controls over financial reporting (the "Guidance Note") and the standards on auditing as specified under Section 143 (10) of the companies act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by Institute of Chartered Accountants of India. Those standards and the guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to four subsidiary companies, is based on the corresponding reports of the auditors of such companies incorporated in India.

1. Notes forming part of Consolidated Financial Statements

A. Principles of Consolidation

1. The Consolidated Financial Statements relate to Media Matrix Worldwide Limited (hereinafter referred to as the "Parent Company") and its subsidiaries (these group entities and the Parent Company hereinafter collectively referred to as "the Group"). In the preparation of these Consolidated Financial Statements, investments in Subsidiaries have been accounted for in accordance with AS 21 (Consolidated Financial Statements) issued by the ICAI. The Consolidated Financial Statements are prepared on the following basis-
 - I. Subsidiary companies are consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses after eliminating all significant intra-group balances and intra-group transactions and also unrealized profits or losses, except where cost cannot be recovered.
 - II. The results of operations of a subsidiary with which Parent - Subsidiary relationship cease to exist are included in the consolidated statement of profit and loss until the date of cessation of the relationship.
 - III. All the Subsidiary Companies, the Companies, in which Media Matrix Worldwide Limited has an ownership of more than one half of voting power or otherwise has power to exercise control over the operations to obtain economic benefits are considered for consolidation except where the control is intended to be temporary because the subsidiary is acquired and held exclusively with a view to its subsequent disposal in the near future. Where a subsidiary is acquired and held exclusively with a view to its subsequent disposal, the investment in the subsidiary is accounted for in accordance with Accounting Standard 13 "Investments" which require that current investments should be valued at lower of cost or their fair value.
 - IV. The difference between the cost to the Company of investment in Subsidiaries and the proportionate share in the equity of the subsidiaries as at the date of acquisition of stake is recognized in the consolidated financial statements as Goodwill or Capital Reserve, as the case may be. Goodwill has been recorded to the extent that the cost of acquisition, comprising purchase consideration and transaction costs, exceeds the book value of net assets in each acquired Company.
 - V. Minorities' interest in net profits, if any, of consolidated subsidiaries for the Financial Year ended March 31, 2018 is identified and adjusted against the income in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the Consolidated Balance Sheet separately. The losses applicable to the minority in a consolidated subsidiary may exceed the minority interest in the equity of the subsidiary. The excess, and any further losses applicable to the minority, are adjusted against the majority interest except to the extent that the minority has a binding obligation to, and is able to, make good the losses. If the subsidiary subsequently reports profits, all such profits are allocated to the majority interest until the minority's share of losses previously absorbed by the majority has been recovered.
 - VI. In case of associate where the Company directly or indirectly through subsidiary hold 20% or more of the equity, it is presumed that the investor has the significant influence, unless it can be clearly demonstrated that this is not the case. Investments in Associates are accounted for using equity method in accordance with Accounting Standard (AS-23) "Accounting of Investment in Associates in Consolidated Financial Statements" issued by ICAI.
 - VII. The Company account for its share in the change of net assets of the associates, post-acquisition, after eliminating unrealized profit and loss resulting from transaction between the Company and its associates to the extent of its share, through its profit and loss account to the extent such change is attributable to the associates' profit and loss account and through its reserves for the balance, based on available information.
 - VIII. As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Parent Company's stand-alone financial statements. Differences in accounting policies are disclosed separately.
 - IX. The financial statements of the entities used for the purpose of consolidation are drawn up to reporting date as that of the Parent Company i.e. March 31, 2018.
 - X. As per Accounting Standard Interpretation (ASI)-15 on Notes to the Consolidated Financial Statements, only the notes involving items which are material need to be disclosed. Materiality for this purpose is assessed in relation to the information contained in the consolidated financial statements. Further, additional statutory information disclosed in separate financial statements of the subsidiary and/or a parent having no bearing on the true and fair view of the consolidated financial statements need not be disclosed in the consolidated financial statements.
2. Significant Accounting Policies and notes to these consolidated financial statements are intended to serve as a means of informative disclosure and guide to better understanding the consolidated position of the companies. Recognizing this purpose, only such policies and notes from the individual financial statements, which fairly present the needed disclosures have been disclosed. Lack of homogeneity and other similar consideration made it desirable to exclude some of them, which in the opinion of the management, could be better viewed, when referred from the individual financial statements.
